Experience

Capgemini

December 2022 – Present

Software Engineer | Senior NetSuite Technical developer

Hyderabad, India

- Designed and developed custom NetSuite solutions using **SuiteScript**, **SuiteFlow**, and **SuiteTalk**, **SuiteBuilder**, **Saved Search** to automate critical business processes and improve operational efficiency.
- Collaborated with cross-functional teams to **gather business requirements, develop technical specifications, Unit testing, integrations** between NetSuite and other business systems.
- Understanding Business Processes and having sufficient knowledge about **Procure to Pay, Order Management and inventory Management**.
- Managed governance** in scripts, implemented **user validation**, and enhanced a file-reading script by **eliminating hardcoded data** and created **robust error handling** mechanism.
- Designed and implemented **email templates** and **advanced PDF/HTML templates** to improve the organization's communication and document generation processes.
- Worked on multiple **Capability initiatives** to enhance and improve overall functioning of NetSuite Practice.
- Performed foundational Celigo integration tasks, including configuring and managing data flows between Celigo Integrator.io and NetSuite to support automation and ensure seamless record synchronization.
- Integrated various transaction types—Sales Orders, Item Fulfillments, and Refunds—into NetSuite using Celigo IO, mapping both custom and standard fields to ensure accurate and efficient data flow.
- Led the integration of Parcel Pro, a secure logistics and shipping platform, with NetSuite ERP using Celigo Integrator.io. This involved:
 - Pulling tracking numbers, shipping carrier details, and shipment statuses from Parcel Pro via REST APIs.
 - Updating NetSuite Item Fulfillment records with real-time tracking data.
 - Pushing Sales Orders and Fulfillment Requests from NetSuite to Parcel Pro to automate shipment initiation and improve fulfillment visibility.

Achievements

- Designed and implemented custom NetSuite solutions to automate critical business processes, resulting in a **30% increase** in operational efficiency.
- Mentored freshers with outstanding results, appreciated by Technical Domain Lead.

Skills

- Html, CSS, JavaScript, Bootstrap5
- Web Services: SOAP & REST, JSON, XML
- Integration: Celigo
- Tool: Git, GitHub, Postman, VS Code,
- Problem Solving, Analytical skill.

Courses & Certificates

- NetSuite Suite Foundation ERP Verify: [Certificate link](#)
- ES6 JavaScript Verify: [Certificate link](#)
- Celigo Fundamentals Level1: [Certificate link](#)
- SuiteScript 2.1

Education
